

ORBIS IonPak®

Foldable Large Containers for Lithium-Ion Batteries

- Certified solution according RID/ADR
- Safe transportation and storage
- Durability and long service life
- High recyclability rate

UN4H2/Y/S*B

INNOVATIVE

ROBUST

SUSTAINABLE

ORBIS Europe IonPak®

Customised Packaging Solutions
based on Standard Dimensions

1200 x 800 / 1200 x 1000

The ORBIS IonPak® is a customisable plastic container for lithium-ion batteries, that are classified as class 9 dangerous goods. The transportation and packaging of these goods is subject to strict regulations. Due to safety hazards, lithium-ion batteries require robust and safe packaging solutions.

OUR SOLUTION: The ORBIS IonPak® plastic FLC

Suitable for non-certified batteries, prototypes,
battery modules and batteries in equipment

How To Efficiently Package Lithium-Ion Batteries

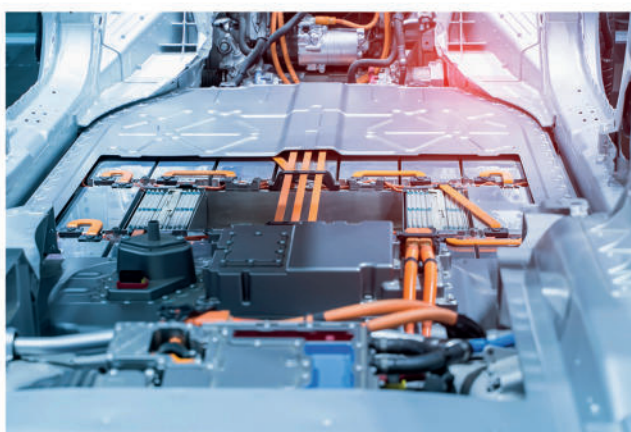

- Converting conventional steel/cardboard packaging to a collapsible, reusable plastic container
- Utilising industry standard footprints designed to interface with existing supply chains (1200 x 800 / 1200 x 1000)
- Increasing return ratio and warehousing savings with a collapsible and stackable container design
- Eliminating risk of rust contamination and operator safety hazards
- Enabling easy handling and maintenance on site
- Eliminating packaging disposal by reusable, recyclable designs

Qualified Consulting By Certified Dangerous Goods Safety Advisors

We support you through the whole process...

...from development to certification of your packaging solution.

- Based on standard European footprints
- Customised protective dunnage for part protection
- Qualified consulting and engineering expertise
- Comprehensive testing of the entire packaging
- UN-certification for solid dangerous goods
- Buyback option for obsolete containers

Cost and resource savings across the entire life cycle:

- ⚙️ Long service life due to production process and all-plastic design
- 🌿 Reduction of CO² emissions by 60-70 kg per load carrier*
- 📊 Fold-down-ratio up to 1 : 2** - Reducing the costs for return shipment by up to 50%
- 📦 Space savings due to stackable design when loaded: up to 1 + 5 static / 1 + 2 dynamic
- 🛡️ Up to 400 kg load capacity in accordance with RID/ADR, relatively low tare weight
- ♻️ Buyback option for obsolete containers, 100% recyclability of plastic raw materials

* according to a calculation with the Walmart Gigaton Calculator

** depending on inner packaging solution

Product Specifications: IonPak

Specifications (All dimensions in mm, unless otherwise indicated)

Model		1200 x 1000 x 600/582		1200 x 1000 x 998/980	
		HDB1210-600 STR	HDB1210-582 R	HDB1210-998 STR	HDB1210-980 R
Available Bottom Configuration		Full Stringer	3 Runners	Full Stringer	3 Runners
