OceanPak® 1190 x 1135

Heavy Load Carrier for Intercontinental Ocean Freight

The collapsible heavy load carrier ORBIS OceanPak® is designed for intercontinental shipments. The FLC offers an efficient footprint that optimizes an ISO sea container and can be collapsed when empty to reduce storage costs. A 40' sea container can hold 60 fully assembled containers and 160 collapsed, empty units. Using recyclable and reusable plastic bins helps reduce disposal costs and increase sustainability in international supply chains.

Overview

- Ideal for long distance/intercontinental sea freight transportation
- Weight capacity of 900kg
- Collapsible to reduce shipping cost
- Stackable 1 + 5 static / 1 + 2 dynamic
- Optimised space utilisation in return transport
- Multiple access door configurations
- Easy to clean, rust-free
- Preventing metal-on-metal part damage
- Easy and quick maintenance on site
- Improved workplace safety
